On Church and State

The recent action of one of the leading churches of The recent action of one of the leading churches of this nation, in annual convention, demanding that the laymen vote only for candidates for office whose views coincide with those of the clergy on one of the leading political issues, and direct and indirect efforts of other church organizations to interfere with the freedom of the ballot, make one of the greatest perils of this age, and present a problem that should receive the whether the present a problem that should receive thoughtful con-

when ministers in convention assembled release the hearts of men and grab them by the throat, for Christianity has broken down, religion has become a farce and the pulpit a failure. When the church substitutes force persuasion, command for conviction and coercion for reason, the sheriff

had as well pass the sacrament, plain-clothes men take charge of the altar and policemen bury the dead, for why a church? and policemen bury the dead, for why a church?

It is as dastardly a crime against government for a minister to under take to deliver the votes of his parishioners to a candidate, as it is for a ward heeler to deliver a block of votes to a political boss, and both ought to be prosecuted, for the law should be no respecter of persons.

It is as objectionable for a convention of ministers to seek by canonical law to control the votes of church members as it would be for a convention.

of manufacturers to issue orders for their employees to vote for a certain candidate. Such conduct is offensive to decency, business morals and a crime against society. Any convention, whether composed of saints or sinners, rich or poor, white or black, that seeks to prostitute power and coerce conscience ought to be broken up by the police and its leaders arrested for

A crime by any other name is a crime just the same. An ecclesiastical A crime by any other name is a crime just the same. An ecclesiastical role cannot sanctify treason, authority to preach does not carry with it license to become a political ringster, or the right to teach us how to pray give a permit to tell us how to vote. No man in joining the church should sacrifice his citizenship, forfeit his constitutional liberties or subordinate his duty to the state. The earth many times has been dreached with the blood duty to the state. of our forefathers fighting to throw off the ecclesiastical voke from the state, and the suggestion of a return to these medieval conditions with their horror and their torture should not be tolerated for a moment.

Laws should be passed prohibiting any preacher, or combination of preachers, from delivering or attempting to deliver their membership or congregation to any candidate for office, and suitable legislation should be passed preserving the sanctity of the pulpit from political vandalism. It is as much a menace to church and state for a political vandalism. It is as for a minister to preach and state for a political to occupy the pulpit to preach the politics from the pulpit than a teacher has no more right to preach the politics from the pulpit than a teacher has to teach his politics to his pupils. A preacher cannot make political trickery righteous by usage any more than he can make profamity respectable by practice. It is one of the ironless of fate that a preacher may become a scandal as well as a glory to civilization.
